

# Call One 2021 FOCUS

## VIDEO COLLABORATION

Call One, Inc. can help you identify the right video collaboration solutions across the multiple environments in your business: Mobile, Desktop, Small to Large Rooms

## ENTERPRISE HEADSETS

Open Office floor plans and background sound while working from home have created a major distraction: Noise. There are a variety of Active Noise Canceling (ANC) to help suppress background noise and let your team members focus wherever they're working from! Call One Inc can help you choose the right solutions for your business needs.

## CONTACT CENTER

Contact Centers today require a whole host of solutions and services to include a critical piece of hardware, the headset. The headset audio quality directly impacts your agents and customer experience.

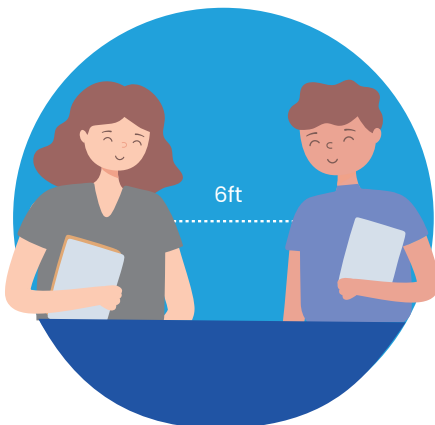

## MOBILITY

Call One, Inc. offers multiple mobility solutions including enterprise software, smartphones like the Galaxy XCover Pro, tablets and Samsung Dex, which can allow your organization to go mobile-only today, leveraging their Galaxy smartphones to drive both on-the-go and desktop computing capabilities.

## CLOUD SERVICES

XaaS, Colocation, Connectivity, Security, UCaaS, Public Cloud, SD-WAN. We help customers solve complex IT challenges and deliver the desired business outcome through next-generation IT technology solutions. We can provide cloud, colocation, connectivity, DRaaS, UCaaS, security and many other offerings.

## SOCIAL DISTANCING

Return to work with confidence and keep your customers and employees safe with social distancing management and monitoring solutions from Samsung, Robin and Embrava.

## UV-CLEAN

Call One, Inc. offers a variety of UV-Clean solutions, these include solutions for Payment Device (UV-PT), Monitors and touchscreens (UV-MM), and a Stand Alone option for portable and mobile devices (UV-SA).
